Pandemic Survival Resources

This is a list of organizations, resources, and groups set up for the community that provide support of all kinds to help people survive this pandemic. Some of these offer pandemic-specific help, and some offer help you may find useful when this virus is no longer causing such impact.

If you know of a resource that you'd like to see listed here, please add it or ask one of us, your group admins, to add it. We are not responsible for what happens in any of these organizations, groups, or initiatives, and have no control over how they are run. This list is offered here as a resource so that each of us has access to this information, and inclusion in this list does not imply endorsement of anything listed here by anyone helping to manage this list.

The following are local resources added to this document by this group's admins/members. If you'd like, include the name(s) of the people in your Buy Nothing group who volunteer to act as point people, helping out with more information, etc:
